SUFFOLK IDLING ACTION

Pollution from vehicles damages our health.

**It can cause asthma, heart
disease, cancer and stunt
children's growing lungs.**

IDLING CARS ARE AN INVISIBLE THREAT - TURN IT OFF!

**Pollution from vehicles
affects children's
growing lungs.**

**It can cause asthma and
stunt lung growth.**

Myth: I need to run the engine to keep the heater on.

Fact: The heater should stay warm with just the ignition on for up to 30 minutes after parking.

Myth: If I'm parked on a yellow line, keeping my engine running means I won't get a fine.

Fact: Idling is against the traffic regulations so you could get a fine for idling and a parking ticket.

Myth: Doesn't stopping and starting wear out the engine?

Fact: This is no longer a problem with modern engines, and by not idling you will use less fuel and reduce your fuel costs.
